Randy, you might also want to call Bruce Duncan (206/553-0218) or Erika Hoffman (360/753-9540) to get a summary of the technical content of the food web modeling meeting.--Cindy

Randy,
I apologize, but the morning meeting ran a bit long and I didn't have an opportunity to check email before the afternoon meeting. If you ever have a similar request, please call my phone number and press "0." That should get you an administrative staff person, and you can ask to have your phone number taken to the meeting so that we can call you.

Cindy -
Any chance I can call in to the afternoon meeting on the FWM?
Randy

This is a reminder of two meetings on Monday, October 24, about the Lower Duwamish Waterway Superfund site. Please reply to me or call me to let us know if you'll attend. As always, please sign in at the 14th floor Service Center and then go to the conference room. We hope to see you next week.

9:00--11:30 a.m. in 15th floor Multnomah Room: Quarterly meeting with EPA & Ecology: The agenda, revised today, is attached:
(See attached file: DuwAgendaQuarterly10.05.doc)

12:30--2:30 p.m. in 15th floor Denali Room: Food web modeling meeting

This will be an informal discussion with a short presentation on:
the purpose of the Food Web Model (FWM),
how it will be used at this site and how it fits in with Ecological
and Human Health Risk Assessments, and
input parameters for the FWM.

Most of the time will be devoted to questions and answers on the FWM.
